

**DEPARTMENT OF ENERGY
DEPARTMENT OF ENERGY FIELD OFFICE, OAK RIDGE
LABOR STANDARDS COMMITTEE CASE REPORT**

IDENTIFICATION No. 01-24 (Work Order, Etc.)	LABOR STANDARDS CASE No. 01-0172
DATE 06/05/01	DATE REVIEWED 06/14/01
CONTRACTOR/LOCATION BJC/ETTP	PREVIOUS CASE
SUBJECT: TRANSPORTABLE VITNFICATION SYSTEM (TVS) & SOIL WASHING FACILITY (SWF) SALE. DISMANTLEMENT, AND REMOVAL PROJECT, \$1,306.00	

1. Davis-Bacon Act not applicable to participation by _____

The work or service is essentially:

- A. ☐ Estimated to cost \$2,000 or less [970.2273(a)(1)]
- B. ☐ Operational and maintenance activities or very closely and directly involved therewith [970.2273(a)(2)]
- C. ☐ Of a routine or recurring nature to preserve usefulness.
- D. ☐ Assembly, modification, installation, replacement, rearrangement, connection, etc., of machinery and equipment [970.2273(a)(3)]
- E. ☐ Experimental development of equipment processes and devices, including installation [970.2273(c)]
- F. ☐ Experimental work - Peaceful uses [970.2273(a)(3)]
- G. ☐ Emergency work - Fire, Flood, etc., and to restart operations [970.2273(a)(6)]
- H. ☐ Decontamination [970.2273(a)(7)]
- I. ☐ Demolition
- J. ☐ Burial of Contaminated Material [970.2273(a)(8)]
- K. ☐ Engineering
- L. ☐ Procurement
- M. ☒ Other Planning (Item 1) Utility Disconnect (Item 2)

2. A. ☐ The Committee recommends that the Manager, DOE Field Office, Oak Ridge, determine that _____ participation includes work and service which involve material risk to continuity of operations, to life or property, or to DOE operating requirements [970.2273(a)(2)]

B. ☐ The Manager, DOE Field Office, OR, hereby determines that participation does not include work and services which involve material risk to continuity of operations to life or property, or to DOE operating requirements.

Manager

Date

3.1 Davis-Bacon Act not applicable to contract with _____

The contract is essentially with or for:

- A. ☐ \$2,500 or less
- B. ☐ Supplies and Equipment
- C. ☐ Servicing or maintenance [970.2210]
- D. ☐ Performance outside USA
- E. ☐ Decontamination
- F. ☐ Demolition
- G. ☐ State or political subdivision
- H. ☐ Railroad and RR employees
- I. ☒ Other Professional Services (Item 1)

3.2 Work determined to be non-construction, as indicated below; however, pursuant to Section 1804 of the National Energy Policy Act of 1992 (PL 102-486) the DBA will apply _____

The contract is essentially with or for:

- A. ☐ \$2,500 or less
- B. ☐ Supplies and Equipment
- C. ☐ Servicing or maintenance [970.2210]
- D. ☐ Performance outside USA
- E. ☐ Decontamination
- F. ☐ Demolition
- G. ☐ State or political subdivision
- H. ☐ Railroad and RR employees
- I. ☐ Other

4. Davis-Bacon Act applicable to contract with _____

The activity is essentially:

- A. ☐ Construction, alteration, repair, including painting over \$2,000.
- B. ☐ Installation involving substantial construction.
- C. ☐ Demolition when indispensable and preliminary to scheduled new construction.
- D. ☐ Other

5. Other Items 344 non-covered, not a Public Work

*Reference numbers in parenthesis denote subparts under Part 970 of DOE Acquisition Regulations.

Labor Standards Determination

Title:

Transportable Vitrification System (TVS) & Soil Washing Facility (SWF) Sale, Dismantlement, and Removal Project

BJC Control: No.:

BJC-ETTP-01-24

Project:

ETTP Waste Operations Project

Date:

6/5/01

Location:

ETTP, K-1775 Technology Demonstration Area, South of K-31 Building

Area Manager:

Edward J. Najmola

Phone Number:

241-1299

Project Manager:

Woody S. Byars

Phone Number:

574-9346

Procurement Representative:

Tim J. Stone

Phone Number:

241-2450

D&D Fund Project: ☐ Yes ☒ No

[Section 1804 of Title IX of the Energy Policy Act of 1992 (PL 102-486)]

Project Scope:

(NOTE: Show breakdown of major work scope activities)

The scope of work for the sale, at no cost to the Government, of the Transportable Vitrification System (TVS) & Soil Washing Facility (SWF) Equipment located in the K-1775 Technology Demonstration Area includes the dismantling, loading, and removal of all the equipment; disposal of all waste materials created from the dismantlement and removal activities.

1. Planning - Includes the preparation of project documents, including a sales contract, with Exhibits A, B, C, D, E, F, G, I, L, etc, as required.
2. Equipment/System Isolation - Includes all activities required to isolate the TVS & SWF and associated equipment located in the K-1775 Technical Demonstration Area proper from all energy sources.
3. Equipment Dismantling, Loading, and Removal - Includes the equipment dismantling, loading, and removal from the K-1775 Technical Demonstration Area.
4. Waste Management - Includes waste segregation, recycling, packing and certification, and transportation to the selected waste disposal facility or storage location.

Analysis of Labor Standards Supporting Proposed Method:

(NOTE: Show breakdown to coincide with major work scope activities above)

1. This work scope includes technical services that will be performed under the service contract act. Professional services in this work scope do not require a labor determination.
2. Equipment and system isolation (from the active system) have been routinely and traditionally performed by the industrial union (PACE) as non-covered work.
3. & 4. Dismantling, loading, removal and waste management activities are required as the "removal" of the purchaser's property at their discretion at no cost to the government.

Proposed Method of Accomplishment:

(NOTE: Show breakdown to coincide with major work scope activities above)

1. Development of project plans will be self-performed by Bechtel Jacobs Company LLC (BJC) and its subcontractors via fixed price task work release. The subcontract will be managed by BJC.
2. This work will be completed by a work release to the BJC Maintenance Service Subcontractor.
3. & 4., This work will be performed by the purchaser under a Sales Contract with BJC. BJC will manage the Sales Contract.
